

```
class Bike9{  
  
    final int speedlimit=90;//final variable  
  
    void run(){  
  
        speedlimit=400;  
  
    }  
  
    public static void main(String args[]){  
  
        Bike9 obj=new Bike9();  
  
        obj.run();  
  
    }  
}
```

```
D:\>javac Bike9.java
```

```
D:\>java Bike9  
400
```

```
